Eat Their Lunch Oct 27 2020 The first ever playbook for B2B salespeople on how to win clients and customers who are already being serviced by your competition, from the author of The Only Sales Guide You'll Ever Need and The Lost Art of Closing. Like it or not, sales is often a zero-sum game: Your win is someone else's loss. Most salespeople work in mature, overcrowded industries, your offerings perceived (often unfairly) as commodities. Growth requires taking market share from your competitors, while they try to do the same to you. How else can you grow 12 percent a year in an industry that's only growing by 3 percent? It's not easy for any salesperson to execute a competitive displacement--or, in other words, "eat their lunch." You might think this requires a bloodthirsty "whatever it takes" attitude, but that's the opposite of what works. If you act like a Mafia don, you only make yourself difficult to trust and impossible to see as a long-term partner. Instead, this book shows you how to find and maintain a long-term competitive advantage by taking steps like: ranking prospective new clients not by their size or convenience to you, but by who stands to gain the most from your solution. understanding the different priorities for everyone in your prospect's organization, from the CEO to the accountants, and addressing their various concerns. developing a systematic contact plan for all those different stakeholders so you can win over the right people at the organization in the optimal sequence. Your competitors may be tough, but with the strategies you'll discover in this book, you'll soon be eating their

lunch.

Lunch with Lucy Nov 27 2020 Transformational Leadership Through Empathy When entrepreneur Sherry Deutschmann first decided to start a business, she knew she wanted to build something totally different. In her first book, *Lunch with Lucy*, Sherry tells the story of the creation of that company, LetterLogic, and how she turned it into a \$40-million company by putting employees first—even ahead of customers and shareholders. Putting her people first took many forms, with an extremely generous profit sharing plan and fair living wages among them. But the centerpiece and heart of LetterLogic's culture was the employee-centric practice Sherry designed called "Lunch with Lucy"—a practice that removed the hierarchical dynamics found in most organizations. On any given Wednesday, any employee could invite "Lucy" (Sherry's midday moniker) out to lunch, at a place of their choice, with the bill picked up by Sherry. At these events, Sherry wasn't the CEO. She was "Lucy," a co-worker. By making herself 100% available, "Lucy" created a judgment-free environment where she could learn about a team member's dreams, ambitions, and challenges—and gain their insight into what she was doing right or wrong as a leader. She credits this approach with the success of her company. *Lunch with Lucy's* interior, refreshingly laid out like courses on a menu, invites us to see how a leader's choices directly impact employee morale, engagement, and commitment—and in this author's case, ultimately led to a healthy and hearty bottom line. Sherry's voice is new, and her honesty, humor, and humility shine through this story of a woman building a successful business through empathetic leadership and uncommon, commonsense business practices, one lunch at a time. Sit down at the table and learn about a business model that is truly transformational.

The Labor of Lunch Nov 15 2019 There ' s a problem with school lunch in America. Big Food companies have largely replaced the nation ' s school cooks by supplying cafeterias with cheap, precooked hamburger patties and chicken nuggets chock-full of industrial fillers. Yet it ' s no secret that meals cooked from scratch with nutritious, locally sourced ingredients are better for children, workers, and the environment. So why not empower “ lunch ladies ” to do more than just unbox and reheat factory-made food? And why not organize together to make healthy, ethically sourced, free school lunches a reality for all children? *The Labor of Lunch* aims to spark a progressive movement that will transform food in American schools, and with it the lives of thousands of low-paid cafeteria workers and the millions of children they feed. By providing a feminist history of the US National School Lunch Program, Jennifer E. Gaddis recasts the humble school lunch as an important and often overlooked form of public care. Through vivid narration and moral heft, *The Labor of Lunch* offers a stirring call to action and a blueprint for school lunch reforms capable of delivering a healthier, more equitable, caring, and sustainable future.

A Really Big Lunch Jan 18 2020 An essay collection from “ the Henry Miller of food writing ” and New York Times–bestselling author of *The Raw and the Cooked* (*The Wall Street Journal*). Jim Harrison was beloved for his untamed prose and larger-than-life appetite. Collecting many of his most entertaining and inspired food pieces for the first time, *A Really Big Lunch* “ brings him roaring to the page again in all his unapologetic immoderacy, with spicy bon mots and salty language augmented by family photographs ” (NPR). From the titular *New Yorker* article about a French lunch that went to thirty-seven courses, to essays on the relationship between hunter and prey, or the obscure language of wine reviews, *A Really Big Lunch* is shot through with Harrison ' s aperçus and delight in the pleasures of the senses. Between the lines the pieces give glimpses of Harrison ' s life over the last three decades. Including articles that first appeared in *Brick*, *Playboy*, *Kermit Lynch Wine Merchant*, and more, as well as an introduction by Mario Batali, *A Really Big Lunch* offers “ sage and succulent essays ” for the literary gourmand (*Shelf Awareness*, starred review).

Kid Food Jul 24 2020 Most parents start out wanting to raise healthy eaters. Then the world intervenes. In Kid Food, nationally recognized writer and food advocate Bettina Elias Siegel explores one of the fundamental challenges of modern parenting: trying to raise healthy eaters in a society intent on pushing children in the opposite direction. Siegel dives deep into the many influences that make feeding children healthfully so difficult—from the prevailing belief that kids will only eat highly processed "kid food" to the near-constant barrage of "special treats." Written in the same engaging, relatable voice that has made Siegel's web site The Lunch Tray a trusted resource for almost a decade, Kid Food combines original reporting with the hard-won experiences of a mom to give parents a deeper understanding of the most common obstacles to feeding children well: - How the notion of "picky eating" undermines kids' diets from an early age—and how parents' anxieties about pickiness are stoked and exploited by industry marketing - Why school meals can still look like fast food, even after well-publicized federal reforms - Fact-twisting nutrition claims on grocery products, including how statements like "made with real fruit" can actually mean a product is less healthy - The aggressive marketing of junk food to even the youngest children, often through sophisticated digital techniques meant to bypass parents' oversight - Children's menus that teach kids all the wrong lessons about what "their" food looks like - The troubling ways adults exploit kids' love of junk food—including to cover shortfalls in school budgets, control classroom behavior, and secure children's love With expert advice, time-tested advocacy tips, and a trove of useful resources, Kid Food gives parents both the knowledge and the tools to navigate their children's unhealthy food landscape—and change it for the better.

Ganesha Goes to Lunch Nov 08 2021 King Kubera was the greediest man in the world. Hated and feared by many, he schemed to win the love of the

beautiful goddess Parvati . . . but learned an important lesson when he invited her elephant-headed son Ganesha over for lunch one day . . . So goes one of the many delightful tales in this decidedly grown-up book of traditional Indian stories, retold for the modern reader. Author Kamla Kapur is well known in her native India as a poet and playwright, and her connection to these age-old stories is the reverent yet individualistic one we might expect from someone whose introduction tells of her hometown, where naked, dreadlocked holy men speed about on motorbikes. To collect these stories, Kapur relied on ancient sacred texts, modern scholarship, and chance encounters with interesting people who just happened to know a really good one about this time that Vishnu sank into the ocean, was incarnated as a pig, and had a really wonderful time. Like myths around the world, these are teaching stories that offer both a window into a fascinating culture that has endured for thousands of years, and a code for living that can be applied to the modern world.

God Was Here and I Was Out to Lunch Nov 20 2022 Explores how, due to our rigid preoccupation with our busy-ness and routines, we fail to sense or appreciate the presence of God all around us; consequently, we miss out on the chance to tap in to common sense, we miss out on the chance to love God and others, and we miss out on the chance to connect with Jesus Christ as our Lord and Savior. In fifteen chapters, Moore highlights hallmarks of the Christian faith that are essential and life-giving for all persons, and which can be ours if only we will learn to recognize God ' s majesty when it is near and open our lives to the change God offers. 15 chapters with a study guide. Appropriate for individual or group use.
